

REINVENT ACCESSIBILITY WITH THE BASIC + SHOWER SEAT

A perfect blend of safety and aesthetics

Tested to over 200kg

Space saving

Easy to install

Ref. 510405

DELABIE, expert in sanitary equipment for people with reduced mobility, has extended its BASIC range with a new shower seat. Developed with particular attention to users' needs and expectations, the BASIC + shower seat redefines comfort and safety in shower areas at a very affordable price.

Accessibility and comfort go hand in hand

The BASIC + shower seat has been specially designed to help people with reduced mobility. Because accessibility and comfort go hand in hand, every detail has been thought out to ensure maximum comfort. Its solid, non-slip polypropylene seat offers unparalleled safety, allowing users to enjoy a comfortable shower in complete confidence.

The BASIC + seat also lifts up. It has been designed to take up as little space as possible when not in use: when folded, it takes up just 85mm of space. Whatever the user's age or degree of independence, this seat with its elegant design is suitable for everyone.

DELABIE makes safety a priority

Like all DELABIE products, the BASIC + shower seat comes with the safety pack: 30-year warranty, CE marked and tested to over 200kg. In public places, the weight of the user is unknown, so the products installed must be stable and able to withstand any eventuality. The structure of the shower seat is made of aluminium, making it both robust and durable, as well as safer to use. It also comes with a leg to secure the installation by acting as a reinforcement when wall fixing alone is insufficient. The leg instantly reassures people with reduced mobility, for whom using the bathroom outside their home can be complicated or even frightening.

An accessible design

Accessibility and design don't have to mean high prices. The BASIC + seat is revolutionising the accessibility market thanks to its affordable price and its intergenerational design, which takes styling to a whole new level.

The BASIC + shower seat is not just functional. It makes an effective contribution to erasing the stigmatising and medicalised aspect of equipment designed to provide access for people with temporary, partial or permanent loss of independence.

Its design, reflected in its sleek lines and discreet aesthetics, blends naturally into any washroom.

Hassle-free maintenance for a spotless shower

Its design makes it easy to maintain, ensuring optimum hygiene and compliance with regulations. It will also withstand the use of chemical products, contributing to rapid and effective cleaning. In addition, the BASIC + seat has concealed fixings to avoid niches where bacteria can adhere. Installing the BASIC + seat is quick and easy! DELABIE designs its products with maintenance personnel in mind: easy to install, service and clean. Also, DELABIE has extended the warranty on its products, including the BASIC + seat, to 30 years, proving DELABIE's confidence in the performance of this shower seat!

PRODUCT BRIEF / BASIC+ SHOWER SEAT

The fact that it can lift-up makes it indispensable in establishments that accommodate people with reduced mobility. Its solid, ergonomic seat provides optimum comfort. Its non-slip properties and supporting leg provide total safety. It is ideal for use in hospitals, care homes, social housing, etc.
