

## Swivelling, tubular spout

Ref. 1306T2

Spout H. 260mm L. 200mm

### DESCRIPTION

Swivelling, tubular spout - Ref. 1306T2

Swivelling, tubular spout, Ø 22mm, on a M1/2" base.  
 Chrome-plated brass spout H. 260mm L. 200mm.  
 Smooth interior reduces bacterial development.  
 Suitable for fitting a terminal filter.  
 Scale-resistant flow straightener regulated at 3 lpm.  
 30-year warranty.

### TECHNICAL CHARACTERISTICS

Swivelling, tubular spout - Ref. 1306T2

|               |                                                                                         |
|---------------|-----------------------------------------------------------------------------------------|
| Connector     | M1/2"                                                                                   |
| Height        | 340mm                                                                                   |
| Drop height   | 260mm                                                                                   |
| Spout length  | 200mm                                                                                   |
| Flow rate     | 3 lpm                                                                                   |
| Finish        | Chrome-plated brass                                                                     |
| Norms         | ACS  |
| Warranty      |      |
| Repairability |      |

### ADVANTAGES

Hygiene: smooth interior reduces bacteria

Water savings: flow rate regulated at 3 lpm

Increased resistance: chrome-plated brass spout

Hygiene: scale-resistant flow straightener
