

Be-Line® matte black angled grab bar 135°, 400 x 400mm

Ref. 511982BK

Matte black aluminium, 3 fixing points

DESCRIPTION

Be-Line® matte black angled grab bar 135°, 400 x 400mm - Ref.

511982BK

Be-line® angled grab bar 135°, Ø 35mm, for people with reduced mobility. For use as a handrail (horizontal part) or as a grab rail (135° part), for WCs, showers or baths. Use as a universal grab bar for either left or right side. Aluminium tube thickness 3mm. Solid aluminium fixing points. Rounded profile Ø 35mm with ergonomic flat front face that prevents rotation for an optimal grip. Matte black powder-coated finish; provides a good visual contrast with light-coloured walls. Anti-bacterial treatment: optimal protection against bacterial development. Uniform surface for easy maintenance and hygiene. 38mm gap between the bar and the wall: minimal space prevents the forearm passing between the bar and the wall, reducing the risk of fracture in case of loss of balance. 3 fixing points prevent the hand from getting trapped and simplify installation. Concealed fixings. Supplied with stainless steel screws Ø 8 x 70mm for concrete walls. Dimensions: 400 x 400mm. Tested to over 200kg. Maximum recommended user weight: 135kg. Grab bars for toilets with 30-year warranty. CE marked.
