CREATE A PERSONALISED CATALOGUE

Create your own catalogue using your own product selection.

You can **personalise** it by giving it a project name and description, by choosing the order for the products to appear and by adding lifestyle images.

This catalogue will then be available in **Word**, **PDF and Excel** formats.

BIM: DELABIE'S CORE PRODUCTS ARE NOW AVAILABLE

To meet the requirements of BIM technology, DELABIE has modelled its core products.

Available in 3 formats - **REVIT, IFC** and **ARCHICAD**, the files can be downloaded via the relevant product data sheet or via datashare.

The list of references available in BIM format is available in Our Services - BIM Files.

Certification ISO 9001: 2015 quality management systems

ACS

Certificate of Sanitary Conformity.

All DELABIE products conform to the CPDW* directive modified 29/05/1997, and the French Ministry of Health circular DGS/SD7A2002 no. 571 dated 25/11/2002.

* Construction Products in Contact with Drinking Water (European Commission).

TRENDS THE MAGAZINE: THE DESIGN TRENDS TAB

Browse the "Trends by DELABIE" magazine intended for those who are passionate about Design and the art of the "Beautiful".

Discover the 4 universes of "Trends" with major international projects, specification trends as well as interviews with prominent designers and architects who talk about their projects and their passions.

Pre-rinse mixers and taps with flexible hose and hand spray

Long Life valve head with an ergonomic ball lever

Full flow rate within the first 90°

Hand spray - rain effect

Hand spray - concentrated jet

SPECIFICALLY DESIGNED FOR INTENSIVE, PROFESSIONAL USE

Subject to intensive use in professional kitchens, the catering industry and for fish preparation, etc., pre-rinse sprays must be robust and reliable. Specifically designed to withstand high stress loads, DELABIE's pre-rinse sprays are also functional, easy to handle, and ensure effective filling and cleaning.

Increased durability and endurance

All DELABIE's pre-rinse sprays are quality-controlled and tested under extreme conditions to ensure their durability. They are ideal for intensive use, particularly during busy periods in the kitchen.

Long Life valve head

Thanks to its exclusive quality features, DELABIE's water-free guided valve head - specifically designed for intensive use - provides the mechanism with enhanced durability and a smooth operation (see page 24).

Extremely robust spout and control levers

Unlike most spouts available on the market, the spout mechanism used for the Commercial Kitchen range for intensive use is manufactured from a piece of solid brass which makes it extremely robust. DELABIE's spouts are 1.25mm thick, ensuring better resistance to knocks from pans.

The ball levers are shock-resistant, specifically designed to withstand impacts.

High performance flexible hose

The flexible hose on the pre-rinse assembly is made from PVC reinforced with a braided interior. It will withstand pressure up to 5 bar and temperatures up to 70°C.

It has a stain-resistant coating, stainless steel hose crimps and a PVC sheath on the stress area, and an anti-torsion rotating nut.

Reliable

DELABIE's pre-rinse sprays are fitted with extremely reliable mechanisms. They are made from scale and corrosion resistant materials.

The mechanisms will with stand the high temperatures in professional kitchens, which can reach $90^{\circ}\text{C}.$

User comfort

Ergonomic ball levers

The Bakelite ball levers are easy to operate.

Practical spouts

The raised spouts can swivel, allowing large pans to be placed beneath for filling. Work surfaces are therefore freed up for greater freedom of movement.

Rapid-fill and effective cleaning

The pre-rinse sprays fill pans and plunge sinks quickly. Thanks to the rapid-turn valve head, full flow rate is achieved within the first 90°. Outlet flow rates up to 25 lpm at 3 bar are available, depending on the mixer.

The shape and intensity of the hand spray jet can be adjusted: rain effect for rinsing dirty dishes and a concentrated jet to remove baked-on food.

Maximum hygiene

Hand spray nozzle with no grid

The hand sprays are fitted with a scale-resistant diffuser (the nozzle has no grid) reducing water retention, impurity build-up and preventing the spread of germs.

Made from Hostaform® (a scale-resistant material), DELABIE's flow straightener reduces scale build-up and ensures the quality of the water jet, maintaining a laminar flow over time. It reduces the frequency of descaling.

Food-grade flexible hose

Made from high-performance, food-grade quality PN 10, the flexible hose assembly is smooth, reducing the risk of bacterial development and facilitating cleaning. In addition, it conforms to European directive 2007/19/CE regarding "materials [...] intended to come into contact with foodstuffs".

Column and spout with smooth interior

The column and spout have a smooth interior which limits bacterial adherence and growth.

AND ALSO...

Easy to maintain

Spare parts are standardised so that maintenance staff can quickly and easily exchange them.

10-year warranty against any manufacturing defects.

Single hole pre-rinse set with mixer

Tubular spout

- Complete pre-rinse set with 34" brass column.
- Deck-mounted single hole mixer with slimline control lever. Supplied with F3/8" flexible connectors and non-return valves.
- Bib tap with:
 - Swivelling, tubular spout L. 200mm.
 - 16 lpm full flow rate achieved within the first 90°.
 - Valve head with reinforced mechanism and ergonomic control lever.
- Black, scale-resistant M½" hand spray with adjustable jet.
- Black, reinforced, food-grade flexible hose L. 0.95m.
- Adjustable wall bracket.
- Stainless steel spring guide.
- 10-year warranty.

New models 5825 and 5826: provisional availability: 2nd half 2024. Please contact sales office to check availability.

Options: hand sprays, flexible hoses and spouts (see page	es 78 - 79)

Short single hole pre-rinse set with mixer

- Complete pre-rinse set with column and swivelling retaining hook.
- Deck-mounted single hole mixer with slimline lever.
- Supplied with F3/8" flexible connectors.
- Scale-resistant hand spray with adjustable jet.
- Black, reinforced, food-grade flexible hose L. 0.50m.
- Stainless steel spring guide.
- 10-year warranty.

Short single hole pre-rinse set with mixer

5526

Single hole pre-rinse set with mixer

Tubular spout

- Complete pre-rinse set with 3/4" brass column.
- Deck-mounted single hole mixer with:
 - Valve heads with reinforced mechanisms and ergonomic control levers.
 - F3/8" flexible connectors and non-return valves.
 - Reinforced fixing via 2 threaded rods and back-nuts.
- Bib tap with:
- Swivelling, tubular spout L. 200mm.
- 20 lpm full flow rate achieved within the first 90°.
- Valve head with reinforced mechanism and ergonomic control lever.
- Black, scale-resistant M½" hand spray with adjustable jet.
- Black, reinforced, food-grade flexible hose L. 0.95m.
- Adjustable wall bracket.
- Stainless steel spring guide.
- 10-year warranty.

Water-free valve head with control knob

Full flow rate in ½ turn

Hand spray - rain effect

Hand spray - concentrated jet

SPECIFICALLY DESIGNED FOR PROFESSIONAL USE

Increased durability and endurance

All DELABIE's pre-rinse sprays are quality-controlled and tested under extreme conditions to ensure their durability under stress.

Water-free valve head

Thanks to its exclusive quality features, DELABIE's water-free valve head, that is fitted to the Commercial Kitchen range, provides the mechanism with enhanced durability and a smooth operation: no sign of wear after 200,000 operations (see page 34).

Robust spout

The Commercial Kitchen range of spouts for professional use is provided with reinforced fixings for the base which ensures the spout is held in place correctly.

DELABÍE's telescopic spouts are robust, ensuring better resistance to knocks from pans.

High performance flexible hose

The flexible hose on the pre-rinse assembly is made from PVC reinforced with a braided interior. It will withstand pressure up to 5 bar and temperatures up to 70°C. It has a stain-resistant coating, stainless steel hose crimps and a PVC sheath on the stress area, and an anti-torsion rotating nut.

Reliable

DELABIE's pre-rinse sprays are fitted with extremely reliable mechanisms. They are made from scale and corrosion resistant materials.

The mechanisms will withstand the high temperatures in professional kitchens, which can reach 90°C.

User comfort

The rapid-fill spout is telescopic and can swivel, allowing large pans to be placed beneath for filling. Works surfaces are therefore freed up for greater freedom of movement.

Rapid-fill and effective cleaning

The pre-rinse sprays fill pans and plunge sinks quickly. Outlet flow rates up to 25 lpm at 3 bar are available, depending on the mixer. The shape and intensity of the hand spray jet can be adjusted: rain effect for rinsing dirty dishes and a concentrated jet to remove baked-on food.

Maximum hygiene

Hand spray nozzle with no grid

The hand sprays are fitted with a scale-resistant diffuser (the nozzle has no grid) reducing water retention, impurity build-up and preventing the spread of germs.

Made from Hostaform® (a scale-resistant material), DELABIE's flow straightener reduces scale build-up and ensures the quality of the water jet, maintaining a laminar flow over time. It reduces the frequency of descaling.

Food-grade flexible hose

Made from high-performance, food-grade quality PN 10, the flexible hose assembly is smooth, reducing the risk of bacterial development and facilitating cleaning. In addition, it conforms to European directive 2007/19/CE regarding "materials [...] intended to come into contact with foodstuffs".

Commercial Kitchen Controls

Long Life valve head, full flow rate within the first 90°

Robust spout

SPECIFICALLY DESIGNED FOR INTENSIVE, PROFESSIONAL USE

Subject to intensive use in professional kitchens, the catering industry and for fish preparation etc., mixers and taps must be robust and reliable. Specifically designed to withstand intensive use, DELABIE's mixers and taps for Commercial Kitchens are also functional, easy to handle, and ensure effective filling.

Increased durability and endurance

All the mixers and taps in DELABIE's Commercial Kitchen range are quality-controlled and tested under extreme conditions to ensure their durability. They are ideal for intensive use, particularly during busy periods in the kitchen.

Long Life valve head

Thanks to its exclusive quality features, DELABIE's water-free guided valve head - specifically designed for intensive use - provides the mechanism with enhanced durability and a smooth operation (see below).

Extremely robust spout and ball levers

Unlike most spouts available on the market, the spout mechanism used for the Commercial Kitchen range for intensive use, is manufactured from a piece of solid brass which makes it extremely robust. DELABIE's spouts are 1.25mm thick, ensuring better resistance to knocks from pans.

The ball levers are shock-resistant, specifically designed to withstand impacts.

Reliable

DELABIE's mixers and taps are fitted with extremely reliable mechanisms. They are made from scale and corrosion resistant materials.

The mechanisms will withstand the high temperatures in professional kitchens, which can reach 90°C.

User comfort

Ergonomic ball levers

The Bakelite ball levers are easy to operate.

Practical spouts

The spouts can swivel, allowing large pans to be placed beneath for filling.

Rapid-fill

Thanks to the rapid-turn valve head, full flow rate is achieved within the first 90° for mixers with ≤ 60 lpm flow rates and in $\frac{1}{2}$ turn for mixers with a 100 lpm flow rate.

Mixers and taps with high flow rates fill pans and plunge sinks quickly.

Maximum hygiene

The smooth spout interior reduces the risk of bacterial development. The spouts are fitted with a brass, star-shaped flow straightener which reduces scale build-up and ensures the quality of the water jet, maintaining a laminar flow over time.

AND ALSO...

Easy to maintain

Spare parts are standardised so that maintenance staff can quickly and easily exchange them.

10-year warranty against any manufacturing defects.

Deck-mounted single hole mixer - 100 lpm

- Swivelling, tubular spout Ø 22mm H. 315mm L. 300mm.
- Star-shaped, brass flow straightener.
- Water-free, guided valve heads with reinforced mechanisms.
- Shock-resistant, ergonomic ball levers.
- Flow rate 100 lpm at 3 bar, suitable for plunge sinks.
- Full flow rate achieved within ½ turn.
- Spout with smooth interior.
- Chrome-plated brass body and spout.
- Soldered copper pipe water inlets.
- Reinforced fixing.
- 10-year warranty.

Water-free valve head

Robust spout

SPECIFICALLY DESIGNED FOR PROFESSIONAL USE

DELABIE's Commercial Kitchen controls have a level of quality that is ideally suited to commercial catering: restaurants, snack bars, caterers, etc.

Increased durability and endurance

All DELABIE's Commercial Kitchen controls are quality-controlled and tested under extreme conditions to ensure their durability under stress.

Water-free valve head

Thanks to its exclusive quality features, DELABIE's water-free valve head, that is fitted to the Commercial Kitchen range, provides the mechanism with enhanced durability and a smooth operation: no sign of wear after 200,000 operations (see below).

Robust spout

The Commercial Kitchen range of spouts for professional use, is provided with reinforced fixings for the base which ensures the spout is held in place correctly.

DELABIE's spouts are 1.25mm thick ensuring better resistance to knocks from pans.

Maximum hygiene

The smooth spout interior reduces the risk of bacterial development.

The spouts are fitted with a star-shaped flow straightener which reduces scale build-up and ensures the quality of the water jet, maintaining a laminar flow over time.

Reliable

DELABIE's mixers and taps are fitted with extremely reliable mechanisms. They are made from scale and corrosion resistant materials.

The mechanisms will withstand the high temperatures in professional kitchens, which can reach 90°C.

User comfort

Rapid-fill

The full flow rate is achieved within ½ turn of the valve head. Depending on the mixer or tap chosen, the flow rate can go up to 45 lpm at 3 bar.

Practical spouts

The spouts can swivel or they can be retracted (telescopic spouts), allowing large pans to be placed beneath for filling.

AND ALSO...

Easy to maintain

Spare parts are standardised so that maintenance staff can quickly and easily exchange them.

10-year warranty against any manufacturing defects.

STAINLESS STEEL FIXING SCREW perfect tightening will not corrode over time ULTRAMID* ANTI-FRICTION WASHER thermoplastic material eliminates metal/metal friction LONG LIFE FOOD GRADE GREASE PRECISION MANUFACTURING reduced wear and smooth operation O-RING allows mechanism to operate free from water

Deck-mounted single hole mixer - 60 lpm

Mixer with extension column

- Swivelling, tubular spout Ø 22mm H. 685mm L. 300mm.
- Ø 45mm ceramic cartridge.
- Flow rate 60 lpm at 3 bar.
- Spout with smooth interior.
- Slimline control lever.
- Body and spout in chrome-plated brass.
- Soldered copper pipe water inlets.
- Reinforced fixing.
- 10-year warranty.

This model is ideal for installation on stove tops.

5652

Deck-mounted single hole mixer with extension column 5652

Deck-mounted single hole mixer - 60 lpm

- Swivelling, tubular spout with hygienic flow straightener.
- Ø 45mm ceramic cartridge.
- Flow rate 60 lpm at 3 bar.
- Spout with smooth interior.
- Slimline control lever.
- Body and spout in chrome-plated brass.
- Soldered copper pipe water inlets.
- Reinforced fixing.
- 10-year warranty.

Deck-mounted single hole mixer	
H. 255mm L. 200mm	5650T2

Non-contact controls

Hygiene and infection control

Reduced-stagnation solenoid valve

No manual contact

Water saving per use

HYGIENE AND INFECTION CONTROL

Opens/closes automatically with no manual contact

DELABIE's electronic mixers and taps are operated by active infrared detection.

Flow opens when the detector senses hands and shuts off automatically when hands are removed from the detection zone.

No manual contact prevents the spread of germs by hand

Anti-bacterial duty flush programme

If a mixer or tap is not used for prolonged periods, water stagnates in the pipework, favouring the development of bacteria (isolated points-of-use, facilities closed during holidays, etc.).

DELABIE's electronic mixers and taps have a duty

An automatic flush takes places for approximately 60 seconds every 24 hours after the last use (can be programmed on some models).

Reduced-stagnation solenoid valve

Most solenoid valves are fitted with a rubber membrane behind which water stagnates and is not renewed. This can lead to bacterial proliferation. DELABIE has developed a technology without a

membrane (patented system).
With this piston-operated solenoid valve, water is drained and renewed with every use which reduces bacterial development.

The solenoid valves' self-cleaning system with a calibrated groove reduces the build-up of dirt. Furthermore, its slow closure eliminates water-hammer.

90% WATER AND ENERGY SAVINGS

Water savings

flush programme.

Compared to conventional mixers and taps, DELABIE's electronic mixers and taps can offer maximum water savings. They ensure the manager's water bills can be reduced whilst preserving user comfort.

Automatic shut-off and split delivery
 The mixer or tap shuts off automatically when hands are removed from the detection zone.
 This removes the risk of waste through negligence.
 The anti-blocking security system activates to prevent the mixer or tap from flowing continuously.
 The flow time is reduced to the necessary minimum (wetting, rinsing).

• Flow rate regulated at 3 lpm

DELABIE's electronic mixers and taps are regulated at 3 lpm. The flow rate remains constant regardless of pressure variations in the system. The flow rate can be adjusted from 1.4 - 6 lpm.

Energy savings

Electronic mixers and taps do not require much energy to operate. DELABIE has chosen infrared pulse technology, a low-power consumption solution.

The infrared beam is emitted intermittently saving energy while ensuring effective detection.

Battery-operated models have an average independent lifespan of 350,000 cycles (i.e. 3 to 6 years) depending on the frequency of use. The Lithium batteries are widely available, affordable and recyclable.

The significant hot water savings provided by DELABIE's mixers and taps also result in energy savings.

Environmental labels

The water and energy saving performance of DELABIE's electronic controls means that the buildings achieve the highest performance standards for international rating schemes such as BREEAM, LEED or ESTIDAMA.

SPECIFICALLY DESIGNED

Easy to install

DELABIE's products are easy to install and adjustments are kept to a minimum to save time during installation.

 Independent electronic control unit: BINOPTIC, TEMPOMATIC 2:

Depending on the model, there is an option to adjust the presence detection distance, to change the operating mode (ON/OFF or automatic) and change the duty flush settings.

The electronic control units are waterproof (IP65) with diagnostic LEDs to facilitate servicing.

 Electronic unit and solenoid valve integrated in the body of the mixer/tap*: TEMPOMATIC 4

Can be installed on any isolated point-of-use, for new builds as well as renovation.

- 6V Lithium batteries*:

There are no electrical connections required. Simply connect the flexibles to the supply pipes in the same way as for a conventional mixer/tap. No special adjustment is necessary; the mixer/tap is ready to operate independently for 3 to 6 years. A red LED will flash for 15 days to indicate that the battery life is low. The battery can be changed without shutting off the water supply or removing the mixer/tap.

- 230/6V mains (plug-in or recessed)*:

Simply connect the flexibles to the supply pipes and connect the electrical supply to the mixer/tap via a plug and socket or recessed connection close to the basin. This does not require any specific maintenance (no battery changes).

^{*} Depending on the model

Electronic mixer and tap, mains supply or battery-operated

- 230/6V mains supply or integrated CR123 6V Lithium batteries.
- Reduced-stagnation solenoid valve and electronic unit integrated into the body of the mixer/tap.
- Scale-resistant flow straightener.
- Duty flush (~60 seconds every 24 hours after last use).
- \bullet Flow rate pre-set at 3 lpm at 3 bar, can be adjusted from 1.4 6 lpm.
- Active, infrared presence detection, sensor at the end of the spout optimises detection.
- Chrome-plated metal body.
- PEX flexibles Ø 15mm for compression fittings with stopcocks, filters and non-return valves.
- Fixing reinforced by 2 stainless steel rods.
- Anti-blocking security.
- Side temperature control with adjustable maximum temperature limiter on mixers.
- 10-year warranty.

TEMPOMATIC PRO

Electronic mixer and tap, battery or mains operated

- Independent IP65 electronic control unit.
- 230/12V mains supply with transformer or battery-operated with CR123 6V Lithium batteries.
- Flow rate pre-set at 4 lpm at 3 bar, can be adjusted from 1.4 6 lpm.
- Scale-resistant flow straightener.
- Adjustable duty flush (pre-set flush ~60 seconds every 24 hours after last use).
- Shock-resistant infrared presence detection sensor.
- Chrome-plated brass body with reinforced fixing via 2 stainless steel rods.
- 360° swivelling spout with smooth interior (reduces bacterial development).
- Removable spout for cleaning/disinfection.
- PEX flexibles with filters and solenoid valves Ø 15mm for compression fittings.
- Anti-blocking security.
- 10-year warranty.

On the mixers:

- Side temperature control with adjustable maximum temperature limiter and long ergonomic lever.
- Solenoid valves are upstream of the mixing chamber.

Two shut-off options are possible with the mains versions:

Standard mode: timed flow with automatic shut-off.

ON/OFF mode: user shuts off flow voluntarily or automatic shut-off after 30 minutes.

Thermal shocks are possible.

SXL hand washbasin

Foot-operated

- Floor-standing, foot-operated hand washbasin.
- Can be wall-mounted and/or floor-standing.
- Bacteriostatic 304 stainless steel.
- Stainless steel thickness: 0.8mm.
- Supplied with swan neck spout and tap with 7-second time flow.
- Easy to maintain: access panel at the front.
- Supplied with 11/4" waste.
- Without overflow.
- Supplied with fixing elements.
- CE marked. Complies with European standard EN 14688.
- Weight: 10kg.
- 10-year warranty.

ADDITIONAL FITTINGS

Electronic soap dispenser

Wall-mounted

- Vandal-resistant model with lock and standard DELABIE key.
- No manual contact: hands are automatically detected by infrared cell (detection distance can be adjusted).
- Cover made from bacteriostatic 304 stainless steel.
- One-piece hinged cover for easy maintenance and better hygiene.
- No waste pump dispenser: dispenses 0.8ml (can be adjusted up to 7 doses per activation).
- Option of operation in anti-clogging mode.
- Power supply: 6 AA -1.5V (DC9V) batteries supplied integrated in the soap dispenser body.
- Low battery indicator light.
- Tank with large opening: easy to fill from large containers.
- Window allows soap level to be checked.
- Capacity: 1 litre.
- Stainless steel thickness: 1mm.
- Dimensions: 90 × 105 × 256mm.
- For vegetable-based liquid soap with a maximum viscosity of 3,000 mPa.s.
- Compatible with hydroalcoholic gel.
- 10-year warranty.
- CE marked.

Wall-mounted, rectangular stainless steel waste bin - 16 litres		
Bright polished stainless steel	6611	
Polished satin stainless steel	6617	

PREMIX NANO

Thermostatic mixing valve

- For 1 2 taps.
- Anti-scalding failsafe: immediate shut-off if hot or cold water supply fails.
- Temperature pre-set at 38°C, can be adjusted by the installer from 34 - 60°C.
- Brass body.
- Filters and non-return valves.
- Recommended flow rate range from 3 12 lpm.
- Thermal shocks are possible.
- 10-year warranty.

732115/732116

732115

732116

PREMIX COMPACT

Thermostatic mixing valve

- For 2 10 sanitary points-of-use (depending on the flow rate).
- Anti-scalding failsafe: immediate shut-off if hot or cold water supply fails.
- Temperature pre-set at 38°C, can be adjusted by the installer from 30 - 60°C.
- Brass body.
- Filters and non-return valves.
- Recommended flow rate range:
 - ½": from 5 20 lpm
- 3/4": from 5 25 lpm. • Thermal shocks are possible.
- 10-year warranty.

PREMIX COMPACT	
M½", Ø 15mm for 2 - 7 taps from 5 - 20 lpm	733115
M¾", Ø 15mm for 2 - 10 taps from 5 - 25 lpm	733116

Pre-mixer Compact

- For installation beneath a single basin.
- Nickel-plated body MF1/2".
- Controllable non-return valves and filters.
- 10-year warranty.

200000

M½", Ø 15mm for 2 - 7 taps from 5 - 20 lpm	733115
M ³ / ₄ ", Ø 15mm for 2 - 10 taps from 5 - 25 lpm	733116

PREMIX NANO (from 3 - 12 lpm) Nickel-plated body M½", 15mm

Polished chrome body M½", 15mm

ADDITIONAL FITTINGS

Adjustable height floor trap

For hard or soft floors

- Flow rate 36 lpm (meets standards).
- Water level 50mm.
- · Bright polished stainless steel grid.
- Horizontal outlet Ø 43mm integrated into the height of the floor trap (saves height and space in all dimensions).
- Integrated waterproof collar to seal waterproof membrane.
- Withstands high temperatures: 60°C continuous, 85°C peak.
- Plunger with handle: easy to grip and easy to clean.
- Smooth PVC body (no impurity retention).
- Classified non-flammable (American certification UL94).
- Height adjusts with extension.
- Grid fixed with 2 stainless steel screws.
- For hard floors (tiles or solid concrete) or soft (vinyl).
- 10-year warranty.

Floor trap

For hard floors

- Flow rate 18 lpm.
- Water level 18mm.
- Brass body 140 × 140mm.
- Bright polished stainless steel grid fixed by one stainless steel screw.
- PVC bell.
- Vertical outlet Ø 40mm

(provide an elbow for horizontal outlets).

- For hard floors (tiles or solid concrete).
- 10-year warranty.

Floor trap 140 × 140mm	684000

WHAT IS THE NF MARK?

The NF Mark affixed on a product attests that the latter complies with the relevant standards and with complementary technical specifications requested by the market, where appropriate.

• SANITARY WATER CONTROLS

The characteristics are specified in the technical documents, prepared with the participation of the manufacturers, the distributors, the consumer associations, the laboratories and the public authorities, fixed by AFNOR Certification and monitored by the "Centre Scientifique et Technique du Bâtiment" (CSTB) (Scientific and Technical Building Centre). CSTB carries out tests on the products and the audits on the companies as part of this application.

WHAT DOES THE NF MARK ACCORD?

> Sanitary water controls

The NF Mark – SANITARY TAPWARE certifies the compliance of products with the certification reference system approved by AFNOR Certification. In particular, this guarantees:

> For automatic shut-off valves

- quality of the surface covering
- interchangeability of valves
- tightness before and after endurance test
- intercommunication between cold water and hot water
- flow rates appropriate to the application
- checking the flow time
- mechanical performances
- wear resistance for the control devices
- acoustic performances.

> For mechanical mixers

- quality of the surface covering;
- interchangeability of mixer taps;
- tightness before and after endurance test;
- intercommunication between cold water and hot water;
- flow rates appropriate to the application;
- use comfort depending on the sensitivity,
 the precision and the temperature constancy;
- mechanical performances;
- wear resistance for the control devices;
- acoustic performances.

HOW DOES ONE RECOGNISE AN NF PRODUCT?

To distinguish products that have been admitted to the NF Mark in the shops and during installation, the NF logo is affixed on the products themselves.

THE NF MARK IS TO BE FOUND ON WHAT PRODUCTS?

The NF Mark is affixed on the following products:

• SANITARY WATER CONTROLS

- single taps and mixer taps;
- mechanical mixer taps;
- thermostatic mixing valves;
- flow rate regulators;
- shower outlets for sanitary tapware;
- extractable handsprays for sink and washbasin mixer taps;
- shower hoses for sanitary tapware;
- waste fittings;
- automatic shut-off valves;
- stop valves mounted:
 - upstream from sanitary tapware;
- on a WC flushing cistern;
- to supply a washing machine;
- multiway selector;
- automatic diverter, Family H, type C;
- electronic opening and closing valve, and specifies the ratings for some of them.

WATER REGULATIONS ADVISORY SERVICE

All sanitary fittings that deliver water from a public mains water supply must comply with the Water Supply (Water Fittings) Regulations (1999) or Scottish Byelaws. These fittings must be of an 'appropriate quality and standard' and must not contaminate the water or cause wastage. Products that are WRAS approved demonstrate this compliance and are recognised by all water suppliers in the UK.

TMV3 SCHEME

The TMV scheme is an independent third party approval scheme administered by NSF International. The TMV3 scheme certifies that products comply with performance requirements of the UK Department of Health's HTM 04-01: Supplement Performance Specification D08 in healthcare and commercial applications in the UK.

NSF International also certifies Type 2 thermostatic mixing valves comply with the requirements of European standards EN 111 and EN 1287.

ACS

ACS: All DELABIE products comply with the French CPDW directive and the 29 May 1997 decree modified by the Ministry of Health DGS/SD7A2002 number 571 of 25 November 2002.

CE certification

for electronic taps and valves: directives 2014/30/UE and 2014/35/UE.

NF EN certification:

French and European standards NF EN 816 NF EN 817 NF EN 1111

NSF TMV3 scheme

ISO certification ISO 9001: 2015

Quality Management System

Other certification:

DELABIE exports to over 90 countries worldwide.

Unless otherwise agreed in writing these conditions constitute the only conditions upon which DELABIE UK Ltd. ("The Company") is willing to supply the goods specified

The Company does not sell directly to members of the public:

- The price list is provided for guidance only and does not constitute a contract. The wholesalers and installers are free to determine their prices in accordance with current regulations, taking into account their costs, services and $\,$ warranty costs they bear.
- The Terms and Conditions are valid for all wholesale customers.

For all other professionals (manufacturers, export, etc.) or for any special manufacturing request, please contact us.

ORDERS AND QUOTATIONS:

These will be processed in order of receipt

We do not accept open orders or orders for call-off.

All orders sent imply acceptance of our general terms and conditions of sale and customers waive any claims that may arise from clauses in their own documentation which may

The customer agrees to these terms from the moment that we receive the order, which cannot be cancelled. Orders are accepted without obligation to deliver the order in full in one delivery.

Our commercial representatives are not authorised

to agree additional terms verbally, or to provide verbal guarantees beyond those provided in the written contract. In the event of default or delayed payment, the Company will be entitled to suspend deliveries or cancel existing orders without any claim for damages from the customer. In the event of a change in circumstances of the buyer, we reserve the right to cancel existing orders or to demand payment guarantees.
Our quotes do not amount to specifications; specifiers

and professional installers are solely responsible for the choice of products according to their intended use, current regulations and recommended guidelines.

Deliveries are invoiced according to the conditions in place at the date of despatch. Prices are given without guarantee and they may be changed without notice subject to fluctuations in costs, VAT or other taxes, according to the prevailing economic conditions.

Price increases will be announced one month prior to their

application, and they apply to quotes and orders in hand. Orders will be despatched free-of-charge for all deliveries within mainland UK, excluding express deliveries

Unless otherwise stated, prices quoted are ex-works and are exclusive of value added tax. All prices will be subject to any value added tax at the appropriate rate. Payment terms, subject to credit approval and prior agreement, are strictly 30 days from invoice date. According to individual credit conditions and/or insurance requirements The Company reserves the right to request payment in advance of despatch of goods on receipt of order. We do not give discounts for early payment.

The company understands and will exercise its statutory right to claim interest and compensation for debt recovery costs under the Late Payment of Commercial Debts (interest) Act 1998 legislation if invoices are not paid according to agreed credit terms.

In the case of late payment a cash payment may be required, replacing existing conditions.

We will not accept any set-off, only our assets have a legal value.

DELIVERY TIMES:

Despatch dates are indicative only and we shall not be liable for any delay or failure in carrying out our obligations where the delay or failure to deliver is caused by risks of manufacturing or where the cause is beyond our control. Delivery delay will not give rise to compensation payment or goods rejection.

SHIPPING:

Orders are sent to our distributors. We do not deliver to site. The buyer assumes responsibility for carriage and packing costs for deliveries outside mainland UK. The carrier is solely responsible for their delivery, and in the event of delay, missing items, damage or other dispute, the customer must indicate this via the delivery driver's paperwork (either electronically or in hard copy) AND follow up with written notification sent by recorded delivery within 24 hours. A copy of this letter must be addressed to us.

No claim will be allowed where the delay in reporting exceeds 8 days following receipt of the goods

The whole of the delivery cannot be rejected because of partial damages and shortages

PROPERTY IN GOODS:

Notwithstanding any agreed terms of sale, the goods shall remain the property of the seller until payment is made in full. The failure to meet a payment deadline may result in the reclamation of these goods. The buyer assumes the risks of loss or damage, regardless of the means of delivery, as described in "DELIVERY TIMES" and "SHIPPING" above, as well as liability for the damage they might cause.

WARRANTY AND RESPONSIBILITY:

Our finished goods are warrantied against any manufacturing defect for a period of 10 years, including electronic controls, excluding other electrical accessories (e.g. hand dryers, etc.) which have a 3-year warranty from the invoice date. This does not apply to products with an expiry date. Spare parts have a one-year warranty.

This warranty is limited to replacement or repair of defective components as determined by our workshops in France but excludes the costs of spoilage, handling and carriage or compensation, whatever they are. We are not responsible for handling charges and the cost of returning products to our workshops.

Disasters or major water damage as a result of manufacturing defects are covered by our product and/or public liability insurance.

Our warranty and responsibility does not include the

- installation that does not comply with the technical specification or current recommended guidelines;
- non-compliance with installation, user and maintenance
- other factors independent of our products' quality, for example: detergents or abrasive cleaning products, the action of hard water, foreign bodies (e.g. gravel, sand, iron filings, scale, etc.), chemical and electrolytic phenomenon:
- lack of supervision, poor storage or poor maintenance;
- product modifications or actions by the customer, or a third party, without our authorisation using non-DELABIE components and/or consumable items.

- products past their expiry date. The water-tightness of connections, joints and the product housing is the responsibility of the professional responsible for installation, and must be guaranteed by them. Warranty excludes joints, valves, washers and rubber seals. However they would be supplied if the warranty application requires them. Any finishes other than chrome or nickel are also excluded from the warranty.

In the event that the product has been discontinued or manufacturing methods have changed and replacements are not available, similar alternative products will be offered. Replacement under warranty will not extend the duration of the original warranty.

Legal warranty of latent defects applies in any event.

SPARE PARTS:

Spare parts and mechanisms that are essential to ensure the correct operation of our products will be held in stock for the duration of the guarantee. They are listed at the back of our catalogues.

RETURNS:

Goods may not be returned to us for credit without our prior written approval obtained by the buyer from the Company and they are received in a good state (determined by our goods inwards department). All transportation costs for returned goods must be paid by the buyer. Goods must be returned to our factory* with good protective packaging. Deliveries less than a month old will be refunded at the

invoiced price. For deliveries older than one month, a deduction will be made for checking, handling and administration costs. A repair and re-stocking fee will apply where appropriate.

Product returns are not permitted in the following

circumstances: discontinued products, specially manufactured products, technical or aesthetic evolution of the product since the date of purchase, scratched or damaged products, products purchased more than one year previously, products with an expiry date. If sent to DELABIE, those products outside the scope of returns will be immediately destroyed/recycled, and will not be returned to the customer.

The schedule of standard deductions is as follows:

- return less than 1 month: refund at invoiced price return between 1 and 3 months: deduction of 15%
- return between 3 months and 1 year: deduction of 30% - return after 1 year: no refund possible.
 - return without prior agreement: additional deduction
- of 5% of the value of the goods with a minimum value of £50 excl. VAT.
- * DELABIE S.A.S.

18, rue du Maréchal Foch 80130 Friville Escarbotin – FRANCE

CLEANING - MAINTENANCE:

Clean with slightly soapy water only, using a soft cloth or sponge, rinse and dry thoroughly. Do not use abrasive or chlorine-based products (with a hydrochloric acid base),

PHOTOGRAPHS AND DRAWINGS:

All photos, drawings or illustrations are for illustrative purposes only, without contractual obligation, and may be subject to change without notice. We reserve the right to modify designs and dimensions without notice and without recourse. This applies to all references, dimensions, information contained in various documents, catalogues installation guides, price lists and websites, which can be modified or discontinued at any time without notice.

INTELLECTUAL PROPERTY AND USE OF CONTENT:

The content (including but not limited to the information, text, graphics, data, images, photos, visuals, videos and soundtrack, and the format of all these elements and our catalogues, websites, etc.) are protected under copyright and/or other intellectual property. The contents are the sole property of their respective editors. Any copying, reproduction, use, adaptation, alteration, modification, translation, dissemination, complete or partial, of content, whether they belong to DELABIE UK Limited or a third party which has granted the rights to DELABIE UK Limited, by any means whatsoever, is illegal except for the limiting rights that are granted below, and/or private copying for the exclusive use of the copier. The content presented in our communication and business tools may be subject to change without notice and are provided without warranty of any kind, express or implied, and cannot give rise to any right to compensation. Protected content may be specifically identified by the following copyright notices: © or "All rights reserved".

The names and logos appearing in our catalogues and websites are registered trademarks. These distinctive marks are the exclusive property of DELABIE UK Limited or third parties who have granted the rights to DELABIE UK Limited. Any use, complete or partial reproduction, or imitation of these marks is prohibited without prior express consent of DELABIE UK Limited.

Alteration and modification of the contents or their use for any purpose other than that authorised, constitute an infringement of DELABIE UK Limited's, or a third party's, property rights. With the following limitations, DELABIE UK Limited grants you the right to download and distribute the content:

- where the download function exists
- for non-commercial purposes
- in good faith
- for maintaining the proprietary notices intact, and for the publication or posting of existing content online, if such information is stated. This right should in no way be interpreted as a trademark or copyright license for the aforementioned content.

PERSONAL DATA PROTECTION:

In line with the General Data Protection Regulation (GDPR), DELABIE is doing everything necessary to limit to a bare minimum the collection of personal data, and its

conservation and ensure its protection.
DELABIE only uses this data for its own use for purposes of information and commercialisation of its products. It is not,

under any circumstances, given to third parties.
The right of access, rectification, removal and opposition to the processing in addition to the limitation and transferability of your data is possible on request to our Data Protection Officer (DPO) at DELABIE via email Data Protection Officer (DPO) at DELABIE via email (dpo@delabie.fr) or recorded delivery with a photocopy of a photo ID to the following address: DELABIE, Henderson House, Hithercroft Road, Wallingford, OX10 9DG.

To improve our services and for training purposes, calls to DELABIE may be recorded. These recordings will not

be retained, and will be systematically deleted within a maximum period of 48 hours.

TERRITORIAL EXCLUSIVITY:

Our wholesalers are authorised to sell in the UK and its offshore territories. For all other countries, the Company has entered into exclusive agreements with import and distribution companies.

In this context, our UK customers cannot sell our products outside their national borders unless they have express agreement from us.

JURISDICTION:

These terms of business are governed by English and Welsh law. Acceptance of an order in stock constitutes a contract under English and Welsh law. All disputes arising from the contract in connection with these terms shall be subject to the exclusive jurisdiction of the English Court, even if there is an appeal and there are multiple defendants, and regardless of the delivery location or stipulated payment. The Company may vary these terms of business from time to time by giving you reasonable written notice. All clauses to the contrary will be considered void by the mere fact of having dealt with our company.
