

2025 MUUUZ INTERNATIONAL AWARD WINNER: RAVA STAINLESS STEEL COUNTERTOP WASHBASIN

STAINLESS STEEL, DESTINED FOR DESIGN

The RAVA stainless steel countertop washbasin (DELABIE reference 120670) won a 2025 Muuuz International Award in the 'Interior Equipment' category.

The Award

The Muuuz International Awards (MIAW) are organised by Muuuz, in partnership with the "d'a" magazine. Each year, they recognise the most outstanding products in architecture, interior design, and decoration.

They highlight the most creative manufacturers and raise awareness for the new products selected. To identify the 2025 winners, the Muuuz editorial team assessed more than 350 new products. The products were evaluated according to four main criteria: design, originality, usability, and technical aspects.

The Product

The RAVA countertop washbasin in polished satin stainless steel embodies a new vision of aesthetics in premium public washrooms. Elegant, it captivates with its circular shape and highly precise finish.

Its clean design, pressed from a single piece of stainless steel, reinforces the impression of fluidity and visual lightness. With its generous diameter (420mm), it guarantees ideal handwashing comfort for high-footfall areas: hotels, restaurants, offices, cultural venues, etc. Made of bacteriostatic 304 stainless steel, the RAVA washbasin offers optimal hygiene and resistance to intensive use. Maintenance is easy thanks to its smooth surface.

Designed for contemporary washrooms, the RAVA washbasin is a natural fit in hotels, restaurants, cultural venues, and corporate headquarters. It integrates seamlessly into any installation, regardless of the washroom configuration.
