

2023 GERMAN DESIGN AWARD WINNER: FINO MATTE BLACK URINAL

SANITARY WARE WITH STYLE

The FINO Urinal in stainless steel with a matte black Teflon® finish (ref. DELABIE 135710BK) has won the 2023 GERMAN DESIGN AWARD with a “SPECIAL MENTION”.

The Award

The GERMAN DESIGN AWARD, conferred by the jury of experts at the German Design Council (Rat für Formgebung), is one of the most prestigious design competitions in the world and enjoys a reputation which extends well beyond specialist circles.

Every year the candidates for product design and communication are carefully selected and awarded for their individual, innovative contribution to the evolution of the international design landscape.

The competition imposes extremely high criteria in the selection of its winners. Due to the unique nomination process, only products that rise clearly above the rest in terms of quality and design are invited to compete.

The Product

Stylish and functional, the new FINO Urinal in matte black follows the latest design trend for black sanitary ware while meeting the needs of public spaces.

It is made from 304 stainless steel, making it resistant to intensive use (unbreakable) and light - a valuable characteristic when it comes to installation. This stainless steel is coated with an elegant matte black Teflon® finish.

Teflon®, or PTFE, is a chemical-resistant material. This is the same finish that is used on the pots and pans in our kitchens. But since urinals are not subject to the same challenges as kitchen ware - high temperatures, sharp knives, etc., the black finish will remain intact for a long time.

In addition, Teflon® is a non-stick surface. Scale, the main challenge to black finishes, will struggle to find purchase on the surface. Washroom cleaning and servicing is therefore simplified.

The FINO urinal is lightweight and easy to install. Its concealed trap makes it ideal for use in public places such as restaurants, schools or offices.

The sleek rimless design provides efficient and hygienic rinsing.

This urinal is part of DELABIE's new stainless steel sanitary ware range with a matte black Teflon® finish. For the total black effect, be sure to check out our matte black range of DELABIE water controls and accessories.
